## PRINCIPAL'S REPORT

### Student Successes

At the end of a long year, we are just delighted with the vast array of successes that Elderslie High School students have achieved. As readers of our Parent Bulletin would know, we try to highlight as many student successes as we can in each edition and I am spoilt for choice on this occasion. At the time of writing, we eagerly anticipate the results of the 2018 HSC in the knowledge that our Year 12 students have worked diligently to achieve their very best. We have learned already however, that two of our students have been named by NESA (NSW Educational Standards Authority) as first in their course in the entire state. These students are Lachlan Willingham, who has achieved first in NSW in General Mathematics while Hannah Jenkins has achieved first in Textiles & Design! It is a rare feat indeed for comprehensive and non-selective schools to achieve such accolades and so we are very proud of both Hannah and Lachlan to see that their hard work has paid off. Hannah and Lachlan were invited to a NESA reception on Wednesday, December 12 along with all the other first in course students from all schools throughout NSW. I would like to also thank Mrs Joanne Amos, Mr Mark Macadam and Mrs Danielle Saunders, who were Lachlan and Hannah's teachers for all the guidance that they provided. This result goes to show our students that they are every bit as capable as students right across the state. For Elderslie High School, we have now achieved four first in state results across the past four years.

In the last edition of the Parent Bulletin, I was able to announce that Indyana Verter's Visual Arts Body of Work had been set aside for Art Express, the annual exhibition of the very best artworks from across all HSC entries. We have now been informed that Indyana's work has indeed been selected and will feature in the regional exhibition being held at Wagga Wagga. We would like to congratulate Indyana for this amazing success.

On Monday, December 3, I was fortunate to be able to attend the Sydney South West School Sport Association's Sporting Blues Presentation. At this event, 19 secondary students from various schools in Sydney South West were acknowledged and presented with their awards. Samantha Glover from Year 12, 2018 was honoured with one of these awards which are only presented to the smallest handful of students who achieve elite levels of state and regional representation. Samantha's successes have been broad and varied across a number of sports but it is in the sport of softball that she has

been most successful. We would like to congratulate Samantha for receiving this award. A photograph is included of Samantha at the awards dinner.

Finally, we were humbled to be approached recently by the Office of the Deputy Secretary who specifically requested some of Elderslie High School's public speakers to chair a two day conference for the Department of Education's School Operations and Performance and Educational Services. Attended by many very senior Departmental Directors and Executive Directors, this was high praise indeed for the prowess of our public speakers. As a result, we were able to send four of our most acclaimed public speakers across the two days: Lachlan Taylor and Breanna Craig from Year 10 followed by Zayne Lewis and Hayley McAllister from Year 9. From all accounts, our students did an amazing job and impressed everyone in attendance. Thank you to Ms Dennis for her co-ordination of this event. Some photographs are included.

### Staffing Changes

The closing of the 2018 school year marks a number of staffing changes for Elderslie High School. We have several staff departing, all of whom have contributed enormously to teaching and learning over a sustained period. We wish all these staff well in their future endeavours: Mrs Juske (Mathematics); Ms Whitfield (Careers/Senior Mentorship), Ms Capaldi and Mr Burden (TAS) and Ms Signorini (Instructional Leadership). We also wish Mrs Nath well on the commencement of her maternity leave. Additionally, we were delighted to welcome Mr Stucken to our permanent teaching staff in the TAS faculty. Mr Stucken joined us at the start of Week 6 and replaces Mr Nethercott. At the start of the 2019 school year, there will be additional staffing announcements.

### Leadership Thank You Morning Tea

On Tuesday, December 11, I held a special morning tea for the members of the Student Representative Council and the Prefect body to thank them for all their efforts throughout

the year. Together with the Captaincy Team for 2018, this group of almost fifty students have volunteered their time generously to make both the school and broader community a much better place. Their initiatives have included lobbying for the introduction of biodegradable drinking straws at the canteen, installing new drinking stations in the playground, raising money for World Vision, supporting local farmers experiencing hardship, improving school litter, supporting the introduction of the Faces of Elderslie program to improve a sense of student belonging and encouraging greater support for acceptance of diverse groups within society. Our student leaders absolutely deserve recognition and commendation for their amazing energy and determination to improve our school. We are so lucky to have them and I am very proud of the hard work they have undertaken. All student leaders will receive a special award from our local Member of Parliament, Mr Chris Patterson at their Recognition Assemblies this week.

### Parent and Citizens Association

The end of 2018 also marks the conclusion of the presidency of Mr Mick Hovey. Mr Hovey has served as the President of the P&C Association for over 6 years and in that time has made a remarkable contribution, from speaking at school events, sourcing community funding grants, raising funds at school barbecues and creating a cohesive team with school leaders to consult on a myriad of school issues. Mr Hovey's children have now finished their education at Elderslie High School and he will certainly leave a lasting legacy. The entire school community would like to thank Mick for everything he has done over this long period of time. We also thank Mrs Megan Atkinson for her service to the P&C. Megan has also served for an extended period of time.

Kind regards,

**Mrs Jenny Lawrence**

## FROM THE DEPUTY PRINCIPAL'S

### Natalie Martin (DP Years 7, 9 & 11)

#### Junior Aboriginal Education Consultative Group Meeting

On 5 December the school hosted the Junior AECG meeting in the library. Students and teachers were represented from Elderslie Public School, Spring Farm Public School, Cobbitty Public School and Elderslie High School. Members from Mawarra were unable to attend due to their Stage 3 camp.

The Junior AECG promotes respect, empowerment and self-determination and believes that collective consultation is important in achieving equality. During the meeting there was a discussion about students nominating to be part of the management committee. Membership of the Junior AECG consists of 4 students from each of the primary schools and 6 students from Elderslie High School.

Students then participated in a get to know you activity and worked in pairs to write down what they would like to learn about, in regards to Aboriginal Education. Their suggestions were recorded in the meeting minutes. Lastly, the high school students showed the primary school students around the school farm. The next meeting is on 20 March 2019.

**Bicycle Safety**

We have had an increase in the number of students who are riding bicycles to school and members of the public have raised concerns about the way students have been exiting the school in an unsafe manner. Parents need to remind their children that all students riding bicycles must wear a helmet and dismount as they are entering the school grounds. Students are also required to walk their bicycles out of the school grounds every afternoon. All bicycle riders need to abide by the road laws and dismount to cross at the pedestrian crossing. Students are not permitted to ride through the school gardens.

At the beginning of 2019, the school will arrange for the Police Liaison Officer to present an educational talk on safe cycling habits, which will include a reminder of the road rules and consequences for not following them.

**Year 9 CAPA Evening**

On 5 December the CAPA faculty put on the annual Year 9 Christmas CAPA evening. There were many engaging performances from Year 9 Dance, Drama and Music, which encouraged the audience to get into the Christmas spirit. Throughout the night, there were guest performances from the Vocal, Ballroom, Junior Dance and Drama ensembles. Thank you to the Stage Crew and Entertainment students who managed the back stage productions. A big thankyou to the CAPA faculty for organising this event.

**Save the Date!**

In 2019 there will be a School Development Day on Tuesday 29 January. School resumes for Years 7, 11 and 12 on **Wednesday 30 January**. Senior students will go home at 12.15pm and Year 7 will finish at 2.30pm. Years 8, 9 and 10 will resume on **Thursday 31 January** and the school Swimming Carnival in on **Friday 1<sup>st</sup> February**.

*Ms Natalie Martin*

**Joanne Amos (DP Years 8, 10 & 12)****Year 11 2019**

On 26 November, our Year 10 students commenced the transition to senior school. In their fresh senior uniforms, they commenced their new timetables including their new school starting time of 8.40am. I have been delighted to see that our new "seniors" have demonstrated an excellent attitude and are thoroughly enjoying the new array of subjects on offer. I would especially like to thank Mr Marshall and Mrs Whitfield for their tireless work in coordinating the program of activities that support our students. The four week program contains not only taster lessons in new senior courses but also a number of workshops designed to support the needs and interests of school leavers and also those continuing on. Amongst the workshops have been sessions on stress management, NESA information, goal setting, research skills and apprenticeships.

In 2019 Year 11 will return to school on 30 January and being a Wednesday they will be able to go home early at 12:15pm on that day. In 2019 senior students will be able to leave

school early at 12:15pm on Tuesdays and Wednesdays. This time is designed to allow for those students studying TAFE delivered VET courses and the other courses being delivered by the Macarthur group of schools. Other students should use the time as an opportunity to complete homework, revision and assessment tasks unless they choose to participate in Wednesday afternoon sport. If there are any Year 11 students who still wish to participate, they may see Ms George in the PDHPE faculty to organise this.

It should be noted that the Life Ready Program (previously known as Crossroads) may be delivered during Wednesday afternoons and more details about the Life Ready Program will be sent home early in 2019. Life Ready is a Department of Education requirement and is an excellent program that covers topical PDHPE issues that are suitable for this age group. The themes presented include mental health and stress, safe driving and partying as well as sexuality. All students and their parents should be aware that Life Ready is compulsory and any student absences during the program must be explained with a doctor's certificate. Students will be required to catch up any work missed due to absence.

**Year 7 2019 Orientation Day**

Orientation Day for our Year 7 students for 2019 was held on Tuesday 4 December and was a great success. I thoroughly enjoyed meeting our new students and their families and helping to support their smooth transition to high school. Whilst we know it is a daunting time for the students, we firmly believe we provide a great program to ease anxiety and promote socialisation with incoming students from a wide range of primary schools. Our Year 11 Prefects played a pivotal role at Orientation and we hope Year 6 students have made lasting connections to a friendly, older role model that they can seek out in the months ahead. I would like to take this opportunity to thank our Year 7 Year Adviser for 2019, Ms White for her efforts in organising the day. Her attention to detail and enthusiasm for her new role are greatly valued.

**New Enrolments**

We have had a number of inquiries for new enrolments over these past weeks with many families moving into our drawing area. If you are aware of any family or neighbours who intend seeking enrolment for 2019, we would appreciate them contacting our school office before close of business on Friday 21 December. This will help us formulate classes and ensure that their details are submitted ready for the year ahead.

**Zone Blues Awards**

On Wednesday 28 November I attended the Macarthur Zone Secondary Schools Sports Association Sporting 'Blue' Awards at Camden Lakeside. I was extremely proud to see so many Elderslie High School students receive these awards. Congratulations to all of our students who were recipients of these awards. It is a wonderful recognition of their commitment and dedication to their chosen sport.

Finally, I would like to wish everyone a safe and happy holiday, and I look forward to communicating with all of you again in the New Year.

**Ms Joanne Amos**

## PRESENTATION EVENING 2018

The annual **Presentation Evening** is on **Monday 17 December 2018 at Camden Civic Centre from 7.15 pm**. This is shaping up to be a wonderful evening with over 250 students receiving awards for leadership, academic, agricultural, cultural and sporting achievements at Regional and State level during 2018. **Students receiving awards should have received a letter by now that details the organisation for the evening.** There will also be some dance and music performances on the evening. Please come along and celebrate the achievements of the wonderful students from Elderslie High School.

**Ms S Dennis**

## CAPA Update

Congratulations to all of the students who participated in making the **Year 9 Christmas CAPA Evening** a fun and successful evening. Well done to all!

Congratulations to the Year 11 Music students on their wonderful performance at the newly named **Jacaranda Festival** on Saturday 24 November 2018. The students did a fantastic job performing on the main stage in the streets of Camden just prior to the lighting of the trees.

There are still a few **2019 CAPA Calendars** available for purchase from the Student Office. Calendars are on sale for \$ 20.00. The calendar would make a great Christmas present and is an excellent memory of this year's routines, ensembles and personalities.

Congratulations to the Musical students on their wonderful performance for the residents of **Carrington Nursing Home** on Wednesday 28 November. It showed wonderful community spirit. The cast for 2019 did a wonderful job at their first All Day Rehearsal on Thursday 6 December for **Grease, The Musical 2019**.

Thank you to the members of the Event Management Team and Entertainment class who assisted with the organisation for **Elderslie Public School's Presentation Evening** on Thursday, 6<sup>th</sup> December. The Staff and students from our Partner Primary School really appreciated your hard work and support in making their evening a success.

Finally, congratulations to the dancers who performed as part of **Schools Spectacular for 2018**. This year's theme was 'The Greatest' and our talented dancers certainly did that on the 23 and 24 November at Qudos Bank Arena.

Congratulations to Indyana Verter from Year 12 on her **selection for Art Express 2019**. Art Express is an exhibition of some of the best artworks from the HSC Visual Arts Examinations. We wish Indyana the best of luck with this event.

Many thanks to all of the students who have assisted with the huge project that is **CAPA Stocktaking**. The CAPA Faculty really appreciate your support with this mammoth task.

**CAPA Faculty**

## Library Matters

It's the end of 2018 and the Library has spent over \$3000 on new books for our students. We have purchased more Manga (Japanese graphic novels) which fly off the shelves, as well as fiction novels that were nominated for The Children's Book Council Awards. We have increased our

Premier's Reading Challenge collection so students can borrow from school for the challenge. We have also enhanced our senior collection of books for Year 11 and Year 12 students to help with exam summaries and exams. These books are very expensive and a lot have gone missing this year, so if you happen to see any lying around at your house, we will be grateful to have them back!

In 2019 we will be trying out some robotics gear in the Library at lunchtimes, so we hope students come down and make the most of this opportunity.

I will also be running a homework club once a week to help students with homework and assignments. Parents are welcome also! A day and times will be announced next year.

We are also pleased to announce we will be subscribing again to both Skwirk and Clickview. Skwirk is a fantastic resource to help with homework and assignments. Google Skwirk. The username is elderslieyr7.1 or elderslieyr8.2 for example (you add your child's year group after the "yr", then add a fullstop and any number up to 25). The password is "dingo" for all years. Clickview is a massive database of educational videos. Google Clickview Online. Then type in your child's email address eg [Fred.bloggs@education.nsw.gov.au](mailto:Fred.bloggs@education.nsw.gov.au) and select Elderslie High from the drop down box. You can then easily search your subjects under the heading LIBRARY or just type a search into the search bar eg equations, and a video will pop up.

Please don't forget we are here to help your child find materials for their assignments. If you are stuck for resources, send your child to see me in the Library and I will help them.

**Mrs K White**  
Librarian

## Victor Chang School Science Award

In mid-November four Elderslie High School students were presented with the Victor Chang Research Institute School Science Awards for their efforts and achievements in Science. The students, Luke Amajah, Chloe Gardner, Alyssa Heyward and Zuhayr Jafri, have consistently demonstrated their strong interests in Science through their active involvement in various iSTEM (innovation, Science, Technology, Engineering, and Mathematics) enriching projects, extra-curricular activities and competitions throughout junior science. During their senior years, Luke, Chloe, Alyssa and Zuhayr have continued to strive to achieve a deep understanding of science concepts. This has resulted in all four students performing at the top of their cohort in several Science Preliminary courses.

The award ceremony was attended by several dignitaries including Cr Peter Sidgreaves the Mayor of Camden, Chris Patterson MP and Dr Inken Martin and other recipients

and their family members. In addition to the award, Luke, Chloe, Alyssa and Zuhayr have been invited to visit the Victor Chang Research Institute to meet the researchers, tour the lab facilities and be provided with a deeper insight into careers in Science.

The diligence and commitment demonstrated by Luke, Chloe, Alyssa and Zuhayr is well deserving of the Victor Chang commendation. Congratulations.

**Mrs Ferris**

Above: Victor Chang School Science Award recipients. L-R: Cr Peter Sidgreaves the Mayor of Camden, Dr Inken Martin and Chris Patterson MP.

## Science Fun

Recently some of our science students and staff were involved in exploring the properties of liquid nitrogen. The students learnt that liquid nitrogen has a boiling point of  $-195.8^{\circ}\text{C}$ , it is nontoxic, odourless, colourless, has low reactivity and like nitrogen gas, it consists of two nitrogen atoms sharing covalent bonds ( $\text{N}_2$ ). Science staff carried out several demonstrations using the liquid nitrogen, including making ice cream and frozen chocolate, freezing flowers and plastics and then watching them shatter, observing how particle movement slows when a balloon of air is immersed in a bowl of boiling liquid nitrogen and modelling the liquid-to-gas expansion ratio of nitrogen which is 1:694, which means liquid nitrogen boils to fill a volume with nitrogen gas very quickly, resulting in a small, but exciting, bang when poured into a closed metal container.

In addition the students learnt about the safe handling and storage of liquid nitrogen and the many applications of liquid nitrogen which include the cryopreservation of biological samples, use as a coolant for superconductors, use in cryotherapy to remove skin abnormalities, the branding of cattle and the molecular gastronomy preparation of unusual foods.

Very 'cool' science!

**Mrs Ferris**

Making ice-cream

## DECEMBER SPORT REPORT

### SSW Open Girls Softball Team

Hannah Trevena and Patricia Leung successfully selected into the SSW Open Girls Softball Team, to compete in February 2019.

### Year 9 PASS Camp 2018

A group of 48 Year 9 students recently attended the Survivor Camp at Cataract Dam Scout Park. The camp provided each student with a range of challenges, for some the biggest being what to pack and how much to pack. We arrived on Wednesday morning and the students' first job was to set up the camp site, the most impressive set up had to be the 'Alabama' boys who had their tents in formation and created rock walls to keep the wildlife out. Day 1 then involved orienteering, high ropes and caving. A number of students had to overcome their fears of heights and claustrophobia however with the support of their peers they were able to complete the activities. Day 2 and 3 had plenty more challenges including the mud run, flying fox, rock climbing, abseiling and the giant swing. It was extremely impressive to watch all of the students encouraging each other to attempt and complete each of the activities. At dinner time it was easy to see who had culinary skills and those who were happy for the quickest method of refuelling. Tyler was creating masterpieces on the BBQ while many others were happy to eat 2 minute

noodles and easy mac and cheese for every meal. It was a great camp with a heap of laughs had by all. Only a few tears, but she was able to laugh about it later after she conquered the giant swing.

### Jamberoo 2018

On Wednesday 12 December 145 students across Year 7-11 made their way down to the Jamberoo Excursion as a reward for their excellent representation of Elderslie High School in extra-curricular activities throughout 2018. Another exceptional day of fun experienced by all. Thank you all for your efforts in 2018, and I look forward to an even greater year of success in 2019.

*Miss George*

## Year 8 Science Gifted & Talented Excursion to WSU Parramatta

On 5 December Ms Jan took 29 Year 8 students to attend a Science Gifted and Talented Program at Western Sydney University Parramatta. Throughout the day, we explored the concepts of chemistry in the university's *Cool, Colour and Create* labs. We conducted chemical reactions to produce great products such as a crystal garden using sodium silicate and reacting it with ions of cobalt, manganese, iron and magnesium and made slime from polyvinyl alcohol, a solution of 4% borax and food colouring of our choice. We also had the opportunity to explore the making of ice cream using liquid nitrogen and tasted the tremendous creation after the demonstration (see below for the recipe!). Other experiments we did included placing an indicator in dry ice to observe the changes in pH, placed dry ice in gloves and watched them expand, and created coloured carnations using food dye.

Overall we all thoroughly enjoyed the day and hope the students next year will also enjoy the experience.

*Tahlia Verry, 8SCIM*

#### Liquid Nitrogen Ice Cream:

Combine:

600ml cream

600ml full cream milk

(1:1 ratio of milk and cream)

With:

10 teaspoons of vanilla extract

20 teaspoons of sugar

(2:1 ratio of sugar to vanilla extract)

Slowly add 1.5L of liquid nitrogen and keep stirring vigorously with a wooden spoon (the quantity of liquid nitrogen required may vary depending on how much you need to get the ice cream texture)

## Year 12 Maths Excursion

I was very fortunate to take my Year 12 Advanced Mathematics students to attend 'A Day of Maths' at the University of NSW on November 21.

It was a great day overall. The organiser said that there were 500 students (all from government schools) from around NSW and that there was one school from as far away as Coffs Harbour, where the students had to get up at 5am to fly to Sydney.

It opened with Rob Stokes (Education Minister) sending a video message, followed by Adrian Piccoli (former Education Minister) who spoke about career paths. This was followed by a senior lecturer from the UNSW who spoke about how mathematics has taken her around the world and provided her with countless opportunities.

The main presenters, Eddie Woo and Adam Spencer, were very engaging and the students and myself learned a lot.

I would like to thank Ms Lawrence who enrolled us in this seminar.

**Bruce Lim**

## Day of Maths

With Eddie Woo and Adam Spencer

A Day of Maths was a test of a very ambitious and promising initiative for public schools for a better education in Mathematics and to create more interest in the field whilst also creating a more positive public view on the subject.

I found this event to be very positive in both idea and execution. The content presented was very useful and

relevant to what we were doing in class. Eddie Woo did a highly engaging and insightful presentation on the nature of mathematics and how it relates to other fields and how it isn't dull number crunching and how it can be a fun and complex subject that engages minds of today to solve problems of tomorrow and how collaboration and fun in mathematics is not only very present but also to be sought after.

Adam Spencer gave a highly educational talk on his interest in mathematics and mathematical ways of problem solving. He walked us through many ways of mathematically approaching problems with example problems from his new book of mathematical and logical puzzles.

Overall the day provided students with a new outlook on mathematics and new techniques to approach questions with, as well as resources to continue to hone their skills in the form of a signed copy of Adam Spencer's book. It also gave students a good insight into the university courses and careers available to them after finishing school.

**By Matthew Guthrie**

## Pathways to Dreaming

### Cool Science Day:

On Friday 30 November Year 8 Pathways to Dreaming students went to Western Sydney University, Parramatta Campus for a science day. Students had the opportunity to

partake in experiments that they could not normally do at school. This is their account:

We did lots of different experiments such as making slime and ice cream, we also made a flower change colours, chromatography and created a chemical garden. Lots of schools were there and we watched displays about nitrogen gas and saw things explode, shatter and catch on fire. Poppy and I made a fire extinguisher from dry ice. Our favourite part of the day was making ice cream. The chemist made it from scratch using cream, milk, sugar, vanilla essence and cooled it down really quickly with liquid nitrogen. It was really 'cool' to eat!

Maddison Kuiper & Poppy La Hay

### ADMINISTRATION:

The School Administration Office would like to wish all our parents & students a very Merry Xmas.

### Information for 2019:

Office hours are between 8.30 & 3.30 each day. Payments may be made at the Front Office by parents between 8.30 & 2.15 each day. Students can make payments at the Student Office during their break times each day. Parent Online Payments via our school website, is a convenient and preferred option for payments, where by parents receive an online receipt immediately.

Student diaries are issued by the school each year, and are a valuable information source for parents and students on School Policies, Merit Schemes, early departure procedures, late arrival procedures, uniforms, bell times, and also included are absentee slips.
